Chapter building: The foundation and heart of APALA's work lies within each APALA chapter and at-large membership. Your membership directly contributes to the chapter's growth and sustainability.

Organizing Institute: This three-day training functions as a pipeline for AAPI union organizers, researchers, and leadership to build power for AAPI working people in the Labor Movement.

Young Leaders Council: Consisting of 30 youth representatives from across the country, the YLC will educate working people under 35 about the labor movement & be active agents of change in their communities.

John Delloro Mentorship Program: This program pairs experienced organizers and rank and file activists with young workers to learn more about immigrant, worker, and civil rights.

Membership benefits also include correspondence from the APALA National office, in the form of our monthly electronic newsletter with updates on critical legislative issues and important events in the AAPI community. For more information, please contact us at apala@apalanet.org or (202) 508-3733.
